Eugene Davis' Funeral in Catlettsburg Sunday

Eugene Lawrence Davis, conductor on the Big Sandy division of the C. & O. railroad, passed away at an early hour Wednesday morning, March 16, at the Kings Daughters' hospital from mortal injuries received on Tuesday when he fell beneath the wheels of a slowly moving train at Shelby, fifteen miles above Pikeville.

The death of Mr. Davis has plunged this division of the road into sorrow for the departure of an employee of the highest type of manhood.

Mr. Davis was thirty-four years of age. He entered the service of the C. & O. as brakeman on October 3, 1904, and was promoted to conductor December 9, 1911.

Mr. Davis was born in South Point, Ohio, but had lived since boyhood in this state. He was a loyal Elk, and had recently been admitted to membership in the Masonic Order.

Six years ago Mr. Davis was married to Miss Gertrude Kelly, of Auxier, who survives him. Since their marriage they have lived at Auxier.

One sister and five brothers are living. Mrs. M. F. Forgy, of Mahan, W. Va.; Harry Davis, of Catlettsburg; J. R. Davis, of Cincinnati; Ernest and George Davis, of Fullerton, and John Davis, the half brother, who lives at South Portsmouth.

The funeral held Sunday afternoon from the residence of his brother, Mr. Harry Davis of Catlettsburg, was one of the largest ever seen in the Gate City. The floral tribute was a colossal and magnificent one. There were many and varied designs from the hundreds of friends of this noble young man.

The automobiles were parked for blocks and the crowds packed the commodious home and filled the large veranda and the surrounding yard. The Elks had charge of the ceremonial at the home and the Masons at the grave. The rites of both orders were solemn and beautiful. There was a large concourse of both orders in attendance.

A special train came from up the Sandy valley bearing hundreds of friends of the lamented dead man and men prominent in railroad circles. This train waited at Normal until after the burial in Williams cemetery at Normal and brought the crowds back and returned with its special quota of passengers up the Sandy valley.

The pall bearers were prominent railroad men, who were special friends of the deceased. They were Charles Richardson, Charles Scott, the latter having been the engineer in charge of the train on which Mr. Davis met the fatal accident, John Holmes, "Tuck" McNeal, J. H. Davidson and Burr Powell.

The beautiful and consoling funeral sermon was preached by Rev. Arden P. Keyser of the M. E. Church South, this city. The hymn service so wonderfully rendered, was by the fine male quartette composed of Nelson Weedon, John S. Hager, Charlie McIntosh and Harry Moore. The multitude attending the funeral was a deep mark of respect and the kindness and courtesy shown and assistance rendered is much appreciated by the family. The father, Mr. G. W. Davis, who had been located in Florida with difficulty, and notified of his son's injuries, arrived here Sunday afternoon. He received the news of his son's death in Cincinnati while eating noon dinner at the same hotel and seated in the same place as five years ago, when he was likewise handed a telegram apprising him of the death of his father. Mr. Davis came to Portsmouth Saturday where he was met by his son Robert Davis and driven here in a automobile. The four brothers and only sister of the deceased were all here. The bereaved wife, the father, sister and brother have the heartfelt sympathy of this entire community as well as hosts of friends.—Ashland Independent.

CHINESE FAMINE LAID TO DEFORESTATION

THE REV. WILLIAM STOUT.

DESTRUCTION of China's great forests is blamed by returning missionaries for the world's worst famine that now threatens to wipe out 15,000,000 lives in North Central China.

The Rev. Mr. Stout, of Louisville and Georgetown, Ky., who has returned home after five years in China, will begin a tour of the State next week to tell of the horrible conditions in the famine area.

The Rev. Mr. Stout is active in raising funds for the China Famine Fund, of which Joseph Burge, Louisville, is treasurer, and the Rev. Dr. E. Y. Mullins, is chairman. Through the China Famine Fund, every relief organization in China is supplied with funds.

KENTUCKIAN TELLS OF WORST FAMINE

The Rev. William Stout Blames China's Catastrophe to Destruction of Forests

WILL SPEAK OVER STATE

Destruction of North China's great forests during the centuries that have passed; this deforestation which now leaves an area of 500,000 square miles denuded of trees, is the direct cause of the worst famine in history. This is the declaration of missionaries returning from the famine area and voiced by the Rev. William Stout, who has returned to his home in Georgetown, Ky., after five years in China.

The Rev. Mr. Stout will start a speaking tour of the state next week in the interest of the China Famine Fund of which Joseph Burge, 9 Board of Trade Building, Louisville, is chairman.

Through the China Famine Fund, every relief organization in China is supplied with funds; these organizations, including the Red Cross, the Salvation Army, Christian missions, religious organizations and American units.

Deforestation is Blamed.

"This great catastrophe which threatens to wipe out the lives of 15,000,000 persons within the next sixty days, he said, is due to droughts, the natural result of the denudation of forests which has gone on for centuries in North China. With few trees on the land to hold the moisture the natural consequence is that rainfall is small and uncertain. Even in years when the rainfall is sufficient the Yellow River and other rivers break over their banks, unprotected by trees, washing away the soil and deluging the crops.

"It is a prevalent idea that rice is the main food of all the Chinese people. This is true in South China where travelers get their impression and is strengthened by the fact that nearly all the Chinese in America came from South China. In the fall, wheat is sown in North China and after being harvested in the early summer, millet and sorghum are sown.

Roots Always Eaten.

"All these crops are harvested by being pulled up by the roots as these with the stalks and straw of the grain are the main dependence for fuel. In the years when crops are short it does not mean only that some little luxuries will have to be given up, but it means that there will be less of the coarse millet meal bread. It means that when the potatoes are gone the vines will be eaten; it means that instead of two or three meals a day there will be only one.

"When a crop failure is fifty per cent, as it often is, it means that many starve to death. The last five crops have been only about ten per cent of normal.

"Practically all of North China is village after village, often only separated by a few yards of ground. In parts of North China the population is twenty times denser than in Jefferson County. The Chinaman may live and carry on a business in a port remote from his ancestral village, but he expects to go there and spend his last days and be buried by the side of his ancestors."
